

Borovitza Bouquet 2020

One of the successful crosses that Bulgarian scientists introduced after WWII. The heavy, somewhat rough mavrud was crossed with pinot noir, the epitome of finesse. This created a grape variety from which lighter to serious, fruity red wines are made. Always with a nice acidity and fine tannins.

This wine is made by means of spontaneous fermentation & is slowly matured in oak barrels.

10.33 €

Winery	Borovitza
Country - Region	Bulgarije
Winestyle	Red: smooth and fruity
Grape Variety	Bouquet/Buket
Viticulture	Organic/Biological
Winemaking	Natural
